56 Hours C. E. Credit

*"I believe that there is only one standard of care in orthodontics and that standard of care is established by the orthodontic profession and the university orthodontic departments in North America. General Dentists and Pediatric Dentists practicing orthodontics should be taught to that standard of care."*

- Dr. Richard A. Litt

**DR. RICHARD A. LITT** received his D.D.S. degree in 1965 from the University of Detroit, and his Masters degree and certificate in Orthodontics from Northwestern University in 1969. Dr. Litt was Professor and Chairman of the Department of Orthodontics at the University of Detroit from 1969-80, and Clinical Professor and Director of Postdoctoral Orthodontics at the University of California, San Francisco from 1980-86.

Dr. Litt is a member of the American Association of Orthodontists, as well as various other groups. He has published many articles and is recognized as one of the most dynamic educators and clinicians in orthodontic education today. He was a member of the European Orthodontic Society, the Societe D'Orthopedie Dentofaciale in France and the Edward H. Angle Society of Orthodontists. He has been the orthodontic consultant to the Cleft Palate Center at Children's Hospital of Michigan and the Director of Orthodontics for the Pediatric Dental Residency Program. Dr. Litt started F.O.R.C.E. in 1985.

F.O.R.C.E. is the first and only extended orthodontic continuing education program patterned after a graduate school education and presented by a qualified, credentialed specialist with clinical and university experience. F.O.R.C.E. programs are designed to educate the practitioner who wants to add orthodontics to his or her practice or expand their present orthodontic services.

**THIS PROGRAM WILL COVER:**

- The Effects of Orthodontic Treatment on Facial Esthetics
- Craniofacial Growth and Development
